

THE TASTE OF KOVAI

Dosa infinity

A good idea and a few good souls can turn your life around! Said the young entrepreneur Muthu Kumar. The unrealized potential of South Indian foods has made him to start a business and he chose to do extensive research and gather enough information to make a perfect launch. He discovered the best course of action but Lack of Capital funds and working

capital was a challenge for Dosainfinity. However, with his college professor's timely support, Dosainfinity became a possibility. In just a few years, the outlets of Dosainfinity grew in numbers across Tamil Nadu. With innovation and collaboration as the pillars, Dosainfinity is making its entry into a new arena through franchising. As pure vegetarian outlets, Dosa infinity has reinvented a wide range of South Indian foods to bring you a one-of-a-kind experience. Especially our innovation in Dosa has allowed us to come up with 100 + Dosa varieties, each with its brand of versatility. They also cater 45 + varieties of idly and numerous options in Lassis, Aloo Twisters, Sodas, and so on. Their adherence to high-quality and unique ingredients has greatly elevated the taste and texture of foods. Hence, their outlets have become the favourite spot for every Dosa lover in the vicinity. Dosainfinity is the delight of dosa varieties.

Rising Above, Little by Little!

Six years ago when a young lad from Coimbatore dreamt of building a name and a brand for himself, it seemed too big to dream. But when he made it happen, he named it "Little Town Waffles" !!! From being someone, who was dreaming to become a civil service officer to becoming an entrepreneur, with his brand expanding into 20 odd branches (franchises) in the span of 18

months, the journey of Mr. Shyam Chander was not really paved with a red carpet but indeed with a rocky road. He won those millions of question marks and billions of doubtful gazes, with gazillions of his prudence and determination. "The love I have for the city, its people, and the love I have for the business I run, is the secret behind the cornerstone that's helping us create milestones" he quoted

when addressed about the expansion and virtue behind the venture. As they continue to evolve, thrive and sustain, their focus on delivering consistently high-quality food remains steadfast, that each customer enjoys an exceptional culinary experience at any of their Little Town Waffles and Cafe outlets.
